

# Outsourced Payroll Service

A flexible, personal and risk-free payroll outsourcing service with optional pension management

## Why outsource your payroll?

### Automate processes

We perform over 6,000 payroll calculations every month, so we know how to handle your salaries. With our streamlined approach to periodic and annual payroll procedures, we'll manage your payslips, tax including PAYE, pensions, paperwork, inspections and reports.

### Enhance accuracy

Avoid mistakes without internal audits and controls. We ensure everything is checked and verified prior to submission and comply with the latest HMRC legislation and RTI online submission requirements.

### Avoid payroll headaches

Say goodbye to the minefield that is PAYE, RTI and AE by outsourcing your payroll to a team that understands the true benefits of accurate payroll management.

## Which option is best for your business?

### Payroll only

Complete payroll management service to accommodate any payroll cycle, any organisation, any size and any sector.

### Payroll and pension

Add-on pension management support to cater for individual employment policies in line with auto enrolment reform.

### White label payroll

Accountancy practices can use our white label service for comprehensive outsourced support or as an overflow.

## How it works

Our Liverpool-based, Bacs-approved payroll bureau is home to our Chartered Institute of Payroll Professionals-accredited payroll clerks.

When you outsource to us, we assign you a named payroll clerk who'll work with you in the same way as your regular employees.

You'll rely on your payroll clerk to alleviate the burden of payroll and pension management, and associated compliance - so that your business operates smarter.
